3M Particulate filters in all Air-conditioning units to ensure that the air is doubly filtered as it is cooled and delivered.

Plasma Ion Technology ensures optimum neutralization of airborne viruses and allergens.

Medical Grade High Efficiency Particulate Air (HEPA) Filters installed in every operatory and also at patient waiting area to ensure **Zero Viral load** in ambient circulated air. Additionally, the entire clinic air is exhausted and replaced with fresh air after every patient is released – also a constant **Negative air pressure** is maintained throughout to ensure minimal aerosol related hazards.

We are Fully Prepared!

With sterile scrub suits, fresh N95 Respirators, SITRA & DRDO Certified disposable Coverall PPE suits, disposable sterile gowns, face shields, and separate donning and duffing areas, we are fully prepared to serve you in the most sterile and hygienic manner.

Quality - made in Germany

MELAG
competence in hygiene

At Aesthetic Dental Clinic we specialize in 100% pathogen free environment with Septodont (France) group of germicides and disinfectants. All non-disposable instruments undergo rigorous washing, cleaning with Ultra-sonics and final autoclaving with the world's finest and most acclaimed B-Class autoclave from MELAG, Germany. All autoclaving logs are auto-printed and documented.
